EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The abstract submitted on 1/13/2006 as two paragraphs has been amended such that it consists of only one paragraph as follows:

An object of the present invention is to provide a process for a high-performance upflow anaerobic sludge treatment (methane fermentation treatment) targeting an organic wastewater containing an inorganic sulfur compound and an apparatus therefor. The invention relates to a process for methane fermentation treatment of an organic wastewater containing a sulfur compound, which includes: detecting a concentration of hydrogen sulfide in a biogas generated from a step of methane fermentation treatment; and, conducting a control of subjecting the organic wastewater to a desulfurization treatment operation in the case that the concentration of hydrogen sulfide in the biogas exceeds a predetermined value, and to an apparatus therefor. It is preferred that the predetermined value of the concentration of hydrogen sulfide is from 1% to 4%, preferably from 1% to 2%, and the desulfurization treatment operation comprises adding a desulfurizing agent containing an iron ion so that a molar ratio of the iron ion to sulfur is from 0.05 to 1.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are allowed for the reasons provided by applicant in the Remarks received by the Office on January 22, 2008.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

2. Replacement drawings were received on January 22, 2008. These drawings are partially accepted. Specifically, the replacement sheet showing Figs. 5a and 5b is objected to because the sheet must include Fig. 6. Applicant is respectfully reminded that a replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended.

3.

Double Patenting

4. The previous double patenting rejection has been overcome by applicant's amendment. Accordingly, applicant need not submit a terminal disclaimer.
